## SYNOD OF BISHOPS ON AMERICA

---

In his apostolic letter of November 10, 1994 on the holding of a Jubilee for the year 2000, Pope John Paul II stated his intention of holding a special Synod of Bishops on America, and he appointed a pre-synodal preparatory committee to this effect. After a study of the different proposals made to him, the Holy Father retained the following theme for this special meeting: *The Encounter with the Living Jesus Christ Who Is the Way of Conversion, Communion, and Solidarity in America*. The principle conclusions he suggests for this special meeting are several: promoting a new evangelisation of the entire continent as an expression of episcopal communion, increasing solidarity between the different diocesan Churches in different areas of pastoral action, highlight problems of justice and international economic relations between American nations, by taking into account the enormous inequalities between Northern, Central, and Southern America. These are vast objectives which cannot be reached without the generous support of all members of the Churches concerned.

### PRIOR CONSULTATION

The General Secretariat of the Synod of Bishops first drafted a working as a study aid to the Holy Father's theme. A questionnaire has been submitted to each bishop so that he may, along with his people, look for appropriate answers; diocesan and religious priests, religious brothers and sisters, parish pastoral councils, organisations and groups, parish communities and others, all are invited to study one or the other of the sixteen questions. I therefore invite all the above-mentioned to send me their answers before January 10, 1997. A diocesan committee will then collate the answers which I shall then submit to the Canadian Conference of Catholic Bishops which will gather together the responses from throughout our country. All the answers must be in Rome by April 1, 1997.

What are the most significant elements in the cultures of indigenous groups, Afro-Americans, or immigrants - found in the territories of your country or local communities - which deserve to be reconsidered or utilised as "seeds of evangelisation"?
